In the original publication of this article [1], a formula's format in the section of "Sample size calculation" was wrong and needs to be revised.

The correct formula should be:

$$N = \left[Z_{(1-\alpha)} \sqrt{2P(1-P)} + Z_{(1-\beta)} \sqrt{P1(1-P1) + P2(1-P2)} \right]^2 / (P1 - P2)^2.$$

The original article has been corrected.
